OFFICE OF THE TAHSILDAR, DAVANAGERE TALUK, DAVANAGERE

Notification, dated 24th March, 1969

Sub : Determination of average yield of Principal Crops in Davanagere Taluk

No. TKLLD.1/66-67. By virtue of the powers vested in me under rule 5(1) & (3) of the Mysore Land Reforms Rules 1965, I, Sri P. R. Shamanaik B.SC., Tahsildar, Davanagere Taluk determine for Davanagere Taluk, the average yield for each of the principal crops for such of the seven classes of lands specified in part A of the schedule appended to Mysore Land Reforms Act 1965 which may exist in the Taluk, with reference to classification of each land whether such land is good land,medium landor inferior land, as specified in rul-23 of Mysore Land Revenue Rules 1964 and hereby publish the same in the schedule appended below for the information of the public of Davanagere Taluk.

Any person interested may, make his representation in writing whithin 30 days from the date of the notification which is date of affixture of this notification on the notice board of the Taluk Office.

Such representation if any made by any person within the above said period will be considered and the final statement of the average yield of the principal crops will be published in due course.

SCHEDULE

Sl. No.	Classification of lands specified in part "A" of schedule appended to Land Reforms Act 1965	Name of principal crops	Determination of average yield of crops per acre in terms of quintals and Kgs.			Remarks
			Good lands	Medium lands	Inferior lands	
1	2	3	4	5	6	7
			Ql. Kg.	Ql. Kg.	Ql. Kg.	
1	First Class :-Wet land or garden land possessing facilities for assured irrigation where two crops of paddy can be raised in a year.		—	—	—	The land belonging to this category is not available at present in this taluk.
2	Second Class :-Wet land or garden land other than first class land possessing facilities for assured irrigation, that is land in chanal area (Nala Fradesh) where one crop of paddy can be raised in a year.	1. Paddy 2. Ragi 3. Groundnut	20 00 12 00 10 00	15 00 10 00 8 00	10 00 8 00 6 00	
3	Third Class :-Wet land or garden other than first or second class land possessing facilities for irrigation from tanks.	1. Paddy 2. Ragi 3. Jola 4. Groundnut	12 00 10 00 10 00 8 00	8 00 7 00 7 00 6 00	5 00 3 00 3 00 3 00	
4	Fourth Class :-Wet land or garden land, other than first, second or third class land irrigated (i) by rain water ; or	1. Paddy 2. Ragi 3. Jola 4. Greundnut	8 00 8 00 8 00 6 00	6 00 6 00 6 00 4 00	3 00 3 00 3 00 2 00	
	(ii) by see page water from tanks. canals or other sources of water ;	1. Paddy 2. Ragi 3. Jola 4. Groundnut	8 00 8 00 8 00 6 00	6 00 6 00 6 00 4 00	3 00 3 00 3 00 2 00	
	(iii) by water lifted from river or channally electrical or mechanical power.	1. Paddy 2. Ragi 3. Jola 4. Groundnuts	12 00 10 00 10 00 8 00	8 40 7 00 7 00 6 00	5 00 3 00 8 00 3 00	
5	Fifth Class :-Dry land or garden land not falling under the first, second, third or fourth class, in areas in which the average annual rainfall is more than thirty five inches or Dry cum wet land or dry-cum garden land that is light irrigated dry land or garden land.	....	—	—	—	Since the annual average rainfall in this Taluk is 25-26 as per data worked out in the printed form by the meteorological department maintained in the Taluk Office the land under this category does not exist in this taluk.

1	2	3	4	5	6	7
6	Sixth Class: Dry-land or garden land not falling under the first, second, third, fourth or fifth class, in areas in which the average annual rainfall is not more than twenty five inches, and is not less than twenty five inches.	1. Ragi 2. Jola 3. Groundnut 4. Navane Cotton	6 00 8 00 4 00 3 00 1 00	4 00 6 00 3 00 2 00 0 75	2 00 2 50 2 00 1 00 0 50	
	Seventh Class :–Dry land or garden land not falling under the first, second, third, fourth or fifth class in areas in which the average annual rainfall is less than twenty five inches or uncultivable dry land in areas in which the average annual rainfall is not less than seventy five inches.	—	—	—	—	No area under this category exists in this taluk.

PROFORMA (FOR FURNISHING PARTICULARS OF AVERAGE FIELD OF PRINCIPAL CROPS DETERMINED AND PUBLISHED UNDER RULE 5 (3) OF TEH MYSORE LAND REFORMS RULES, 1966) IN DAVANGERE TALUK.

District : Chitradurga; Taluk : Davangere.

Local area (Name of Villages)	Class of Land	Grade of land	Principal crops grown	During the Revenue Year 1965 commencing from 1st July	Gross Produce per acre (*i.e.* the average yield of principal crops determined and published under Rule 5(3) of the Mysore Land Reforms rule 1965	Remarks
Nil	First Class: Wet land or garden land possessing fecilities, for assured irrigation where two crops of paddy can be rited in a year.	...	...	...	Quintals-Kgs.	The land belonging to this catagory is not available at present in this Taluk.
Area under Irrigation by Bhadra Reservior Project belonging to the Villages.
